CLOUD-MANAGED NETWORK SERVER

GET MORE FROM YOUR SECURITY INVESTMENT WITH OPENEYE WEB SERVICES

Welcome to the future of video surveillance! OpenEye Web Services is a powerful, cloud enabled video management platform which improves operational effectiveness and drives value across your entire organization. OWS delivers innovative solutions which produce a greater return on your investment, simplify the management of your video system, and provide a safer, more secure surveillance solution.

CLIP SHARING

Export video clips to the cloud so they cannot be lost. Share video clips via email with password protection.

CENTRALIZED USER MANAGEMENT

The OWS web interface provides secure storage of all user profile information, allowing role-based management for hundreds of users.

HEALTH MONITORING

Cloud-based health monitoring ensures your cameras and recorders are working properly and minimum recording retention levels are being met.

SINGLE SIGN-ON

Log into OpenEye Web Services, Apex Server, Command Station, and OpenEye Mobile using the same email address and password.
